INTRODUCTION

I am a recent Software Development graduate at CodeSpace Academy seeking a full-time position or internship where I can grow my skills as a Front-end Developer. After completing a Responsive Web Design Course from FreeCodeCamp, I had the opportunity to move to CodeSpace Academy where I could deepen my learning in a structured environment. I have gained a strong foundation in the software development concepts and frontend technologies including HTML, CSS, Javascript and React.js. My studies have prepared me to learn rapidly and I am committed to learning more especially from experienced professionals in the field.
